CITB SSSTS Health and Safety for Site Supervisors – 2 days

Introduction

This CITB Site Safety Plus 2 day course of training is intended to increase the competence of Site Supervisors and Foremen on health and safety issues and should be considered to be 'foundation' training prior to upgrading to the CITB Site Managers Safety Training Scheme 5 day course. The 2-day course is primarily for supervisors and foremen who may be required to manage health and safety on small construction sites, or support the main site manager on larger sites, or are starting their role as a Supervisor.

For Whom the Course is intended:

All levels of site supervision, from the beginner to the experienced who are managing operatives and sub-contractors on site.

Objectives:

- Understand the Supervisors key role for implementing and monitoring health and safety in the workplace.
- Understand the principals of risk assessment and the purpose of safety method statements for dealing with high-risk activities.
- Appreciate the role of the H.S.E.
- Understand the purpose of the safety inspections and methods of recording.
- The Supervisor's role with regard to the Construction (Design and Management) Regulations and liaising with other "duty holders"
- Understand the Work at Height Regulations and the hierarchy of selection of work equipment for work at height
- Understand what is 'suitably approved' and 'suitable for task' Personal Protective Equipment

Course Duration:

Two Days

Trainee Numbers

Maximum 18 delegates per course

Achievement Measurement:

Skills and knowledge will be assessed throughout the course, course exercises and by using an End of Course Multiple Choice Test paper.
