Safety Training & Services to Industry

FACT SHEET

CITB Site Safety Plus – Safety Awareness 1-day Course

INTRODUCTION

This one-day Health and safety awareness (HSA) course is designed to aid the understanding of potential hazards the construction worker may face on site.

It provides a practical summary of health, safety, welfare and environmental issues. It identifies the delegate's responsibilities for looking after themselves and others, outlines the employer's duties and explains what should be done if the worker thinks that anyone's health and safety is being put at risk.

The course is an ideal foundation for those wishing to obtain an industry site card. It is also an alternative route to the QCF Level 1 Award in Health and Safety in a Construction Environment for the CSCS Labourer Card.

The course provides health and safety awareness and is endorsed by Build UK as standard training for all operatives on site.

COURSE AIMS

To ensure the individual responsibilities of the worker are understood.

- Why they are carrying out their identified duties.
- What is expected of them?
- How they contribute to the safety of the workplace.

FOR WHOM THE TRAINING IS INTENDED

Construction company personnel who want to raise their level of health, safety, welfare and environmental knowledge to help them identify hazards on site, and how to avoid them

OBJECTIVES

At the end of the course, delegates will understand: -

1. Their duties/responsibilities under the current legislation;
2. How and why the construction industry continues to have a poor accident record; and how they can contribute to making the industry a safer place to work;
3. Why employers need to set up safe systems of work; and why employees need to follow these systems and obey site rules;
4. That health and welfare issues are as important as safety. This will be emphasised as each course topics are addressed.
5. How to select and properly use Personal Protective Equipment
6. Safe Work at Height Issues
7. Other construction related topics health and safety requirements

TRAINEE NUMBERS - 18 delegates (maximum per course)

ACHIEVEMENT MEASUREMENT

A "Post Course" multiple choice test will be used at the end of the course to measure delegate's new health and safety retained knowledge.
