

NORTHERN COUNTIES SAFETY GROUP LTD

Safety Training & Services to Industry

FACT SHEET

Abrasive Wheels - Portable Tools - ½ day

Introduction:

The use of abrasive wheels, particularly “cut-off” saw’s and grinding tools are common to all construction sites and civil engineering.

Course Aims:

This course of training will enable users to inspect and safely handle such equipment; and ensure that they can select and change the cutting or grinding disc and select the appropriate personal protective equipment to reduce the risk of personal injury

Course Content:

- Legislation
- Accident statistics
- Types of discs and marking system
- Inspecting for damage
- Machine inspection and function of all components
- Selecting the correct disc and fitting requirements
- Personal Protective Equipment and selection criteria
- Safe use of the machine

Participants:

Maximum 18 delegates per course

All users of portable cutting and grinding tools who are required to select and change abrasive wheels

Duration: 0.5 Day (3½ hours)

Unit 4 & 5 Evans Business Centre, Belmont Industrial Estate, Durham City, DH1 1ST
